2-1-15. Petition examined by secretary of state--Public record--Signature count--Random sample. Upon receipt of a petition to initiate an amendment to the South Dakota Constitution, initiate a measure, or refer a law to a vote of the electors of the state, the secretary of state shall promptly examine and catalogue the petition and petition signatures and make them available to the public upon request and payment of the fee required by § 1-8-10.

An individual's signature may not be counted by the secretary of state if:

- (1) The individual is not a registered voter in the county indicated on the signature line; or
- (2) The information provided by the individual on the petition form is not accurate or complete.

If the address provided by the individual is not substantially the same as the address at which the individual is currently registered to vote, the secretary of state may not count the signature.

The secretary of state shall generate the random sample under § 2-1-16 within five days of completing the examination and cataloguing of the petition signatures and shall make the random sample validation sheets available to the public, upon request and payment of the fee required by § 1-8-10.

2-1-16. Signatures to be verified by random sampling--Methodology. The secretary of state shall verify the signatures pursuant to § 2-1-15 by random sampling. The random sample of signatures to be verified shall be drawn so that each signature received by the secretary of state is given an equal opportunity to be included in the sample. The secretary of state shall calculate the number of valid signatures by multiplying the total number of signatures received by the percentage of successfully verified signatures from the random sample. The secretary of state shall promulgate rules, pursuant to chapter 1-26, establishing the methodology for conducting the random sample. The random sampling shall be an examination of the signatures received consisting of a number of signatures that is statistically correlative to not less than ninety-five percent level of confidence with a margin of error equal to not more than three and sixty-two one-hundredths percent.

If the random sample indicates that an insufficient number of qualified electors have signed the petition, the

secretary of state shall certify that the petition has not been signed by the required number of qualified electors and may not place the proposed measure or amendment on the next general election ballot. The secretary of state shall, within five days of certifying, notify the petition sponsors by certified mail of the secretary of state's action pursuant to this section.

Not more than thirty days after a statewide petition for an initiated amendment to the Constitution, initiated measure, or referred law has been validated and filed, any interested person who has researched the signatures contained on the petition may submit a sworn affidavit to the Office of Secretary of State to challenge the petition. The sworn affidavit shall include each specific deficiency other than the following:

- (1) Signer does not live at address listed on the petition;
- (2) Circulator does not live at address listed on the petition;

- (6) Petition that was originally rejected.

Any challenge by the same person or party in interest shall be included in one sworn affidavit.

The original sworn affidavit shall be received by the Office of Secretary of State by 5:00 p.m. central time on the date. If the sworn affidavit challenges any deficiency prohibited under this section, that deficiency shall be rejected. A challenge to a deficiency is not a challenge to the petition as a whole.

No deficiency may be challenged a second time with the secretary of state. The secretary of state's decision regarding a challenge under this section may be appealed to the circuit court of Hughes County. Any person who does not challenge a petition pursuant to this section, may bring a challenge pursuant to § 2-1-18.

The results of the process of signature verification by the Office of the Secretary of State under chapter 2-1 shall be presumed valid as applied to all signatures for purposes of considering any additional ground for disqualifying petition signatures, including any ground listed in subdivisions 2-1-17.1(1) to 2-1-17.1(4), inclusive, and cumulating total valid signatures to determine the results of an appeal under § 2-1-17.1. The summons and complaint for a challenge under this section shall be served on each petition sponsor as a party defending the validated petition being challenged. Any appearance by the attorney general at a challenge under this section shall be limited to the process of signature verification by the Office of the Secretary of State under chapter 2-1.

notification to the secretary of state stating that the individual's name be withdrawn from the petition. A signature may be withdrawn as provided in § 2-1-18.2.

The written notification must include:

- (1) The title of the petition;
- (2) The printed name, signature, residence address, and county of registration of the individual withdrawing the individual's signature from the petition; and
- (3) A statement that the individual is withdrawing the individual's signature from the petition.

The individual's signature on the written statement must be witnessed and notarized by a notary public commissioned in South Dakota or other officer authorized to administer oaths pursuant to § 18-3-1. For a written notification to withdraw a signature to be valid under this section, an individual must submit the written notification to the secretary of state at any time before the petition from which the individual is submitting a written notification for withdrawal under this section and § 2-1-18.2 is filed and certified for placement on the next general election ballot under § 2-1-17.

The written notification may be delivered by hand, or United States registered mail to the secretary of state.

If a signature is withdrawn pursuant to § 2-1-18.1, the signature is deemed withdrawn from the petition and may not be counted as valid in a challenge.

Not more than ten days prior to an election, the person in charge of the election shall conduct a test of the automatic tabulating equipment to ascertain that the equipment will correctly count the votes cast for all offices and on all measures. The test must be open to the public. The person in charge of the election shall notify the county chair of each political party with a candidate on the ballot, any independent candidate or candidate without party affiliation on the ballot, and the ballot question committees for or against an initiated or referred measure or initiated constitutional amendment, of the testing of the automatic tabulating equipment, one week before the test is conducted. A ballot used to test the automatic tabulating equipment must be clearly marked as a test ballot. After each test, the testing materials and the predetermined number of ballots used during the test must be sealed and retained in the same manner as election materials after an election.

12-19-9.1. Nursing facility, assisted living center, or hospital having multiple absentee ballot requests--Promulgation of rules.

If there is any nursing facility, assisted living center, or hospital, as defined in § 34-12-1.1, within any county from which there might reasonably be expected to be five or more absentee applications, the county auditor shall notify the person in charge of that facility and the chair of the county central committee of each party and any other person who has filed a request to be notified of the date and time at which representatives of the auditor's office will be present to assist the residents of that facility to vote, utilizing the absentee procedure. This term excludes a county auditor's means for physically securing a completed absentee ballot as required by § 12-19-10 or 12-19-42, including a secured and monitored receptacle or container at the office of the individual in charge of the election. The State Board of Elections shall promulgate rules, pursuant to chapter 1-26, prescribing the requirements to ensure the security of the receptacle or container located at the office of the individual in charge of the election.

12-19-10. Preservation and delivery of ballot to superintendent or board--List of voters--Comparison of statement and application--Deposit in ballot box--Unopened ballots--Unauthorized examination, communication, or record--Penalty. Upon receipt of the sealed return envelope containing the voted ballots, the person in charge of the election or their designee shall mark the date of receipt on the envelope. The person in charge of the election shall keep the absentee ballot in a safe place without opening the envelope or breaking the seal thereof, and shall deliver it to the superintendent of the voter's home precinct, or to the absentee ballot counting board as provided in § 12-19-42. The person in charge of the election shall have the absentee ballots delivered with the election supplies, or if received later, then prior to the close of the polls. If the person in charge of the election creates an absentee ballot precinct, pursuant to § 12-19-37, the person in charge of the election must deliver to the superintendent of each precinct, the list containing the names of each voter who voted by absentee ballot along with the election supplies. On election day, the person in charge of the election shall forward to a precinct superintendent any updates to the list of voters who voted by absentee ballot upon receipt of an absentee ballot. If the precinct election board is not otherwise engaged in official duties, or if there are absentee ballots not processed when the polls close, immediately thereafter, the board must carefully compare the statement on the reverse side of the official return envelope with the written application received from the officer in charge of the election without opening or breaking the seal of the return envelope. The board shall omit the comparison of the statement and the application if the ballot is contained in a combined absentee ballot application form and return envelope. The precinct election board or the precinct counting board shall enter the voter's name in the election pollbook and mark the registration list whether:

- (1) The ballot received was voted by the voter whose name appears on the statement;
- (2) The voter is registered in the precinct and has not previously voted in that precinct at the election;
and
- (3) The written application and statement were both signed by the voter.

The board shall then open the envelope without opening, unfolding, or examining the ballots the envelope may contain; stamp the ballots with the official stamp; and deposit the ballots with the other ballots cast at the election. If the board determines that an absentee ballot envelope cannot be opened because the envelope does not meet the requirements for opening, the reason for not opening the envelope must be written on the envelope, accompanied by the signature of a member of the board, and the envelope must be placed in a larger envelope for unopened absentee ballots. It is a Class 2 misdemeanor for an individual, prior to the counting of the votes, to open, unfold, or examine any ballot, or make any communication to any other individual concerning the markings or contents of the ballot, or to create any record associating an individual voter with a ballot.

12-19-10.1. County auditor validation of absentee ballot signatures--Violation as misdemeanor. If a county uses an absentee ballot precinct at the building where the county auditor is located to process absentee ballots on election day for a federal, state, or county election, the county has the option to validate the absentee ballot signatures in the county auditor's office. The county auditor shall follow the provisions of § 12-19-10 except for the following:

- (1) The county auditor, at anytime during the absentee voting timeframe, shall carefully compare the statement on the reverse side of the official return envelope with the written application without opening or breaking the seal of the return envelope; and
- (2) If the county auditor determines that both signatures match:
 - (a) The application for absentee ballot does not need to be sent to the absentee precinct board; and
 - (b) The county auditor shall initial the envelope after the determination that signatures do match.
